RE: OAB Project
Community Fund

RG08 379 099

Hello Judge Freedman

I am a resident of West Oakland, and on the committee WOCAG, we've been involved with Army Base reuse plan from the beginning.

Once the base was split into two parts with city & port. A community fund was written into the plans. The city & port were to input \$2 million dollars each, after a master developer/contractor was chosen. The sad part both parties have stalled in putting these funds up, they have just given us the run around, and myself also, seems I got lost in the process. Now seems these funds will arrive once the base is finished and all developed. This will be in the next 5-10 years.

Now to read of these two lawsuits, and the lawyer's involvement. These lawsuits will get settled and these lawyers will get paid off and the community will get nothing. With the changing faces in W. Oak., longtime residents will get nothing. I had hoped to use community fund in restoring my property which burned a few years back, and city programs have failed in supporting my efforts.

Judge Freedman, this is not right. You should look into community fund process, before you issue a judgment for these lawyers, getting rich off of doing 'much of nothing', and showing up late with issues just discovered. A sad state of affairs. The African-American population has dropped by almost half. Newcomers rule

Thank you for reading my letter, sincerely

A. L. Brown

PS: Not familiar with AB Trucking situation, again seems I got left out. Everyone involved needs to be working together, something that is not happening in Oakland.
